Dear Mr. Lackey:

I am writing to thank you for your creative presentation to the youth that are involved in our Weekend Recreation Program.

Your presentation provided motivation and strategies to help young people develop skills necessary to survive in today's society. Our program involves prevention and education in the areas of self-esteem, drug abuse, staying in school, & violence. It was quite unique how you used magic tricks to convey lessons to the youth in all of these areas. Not only did it keep their interest and insure that they were learning, but they were also intrigued by your performance.

Again thank you for your support and we look forward to having you back in the future.

Sincerely,

Diane L. Allen
