To Whom It May Concern:

Dyna-Mike the Magician recently performed for our Head Start children, ages 3-5. His message was "Safety Is Everything", and our children will be repeating these "magic words" for a long time! By using his illusions and the children's help, Dyna-Mike was able to keep the children's attention focused on the many personal safety lessons he presented. Now, when the children talk about the magic tricks they saw, they are also remembering important rules for their own safety.

Dyna-Mike was very professional and very entertaining. Even the adults in the audience were impressed with his skills. We were also pleased with his ability to relate to this young audience.

I have already recommended Dyna-Mike to other Head Start programs, and I will continue to recommend him to other schools and programs in the area.

For our children,

A handwritten signature in cursive script that reads "Barbara Janeczko".
